Jasleen Kaur Grewal

QA Automation Engineer

Professional Experience

As an Experienced QA professional with over 6 years of experience, I specialize in delivering high-quality software solutions through meticulous testing practices and innovative automation techniques. Proficient in optimizing workflows and integrating cutting-edge technologies, I ensure superior quality assurance standards are met at every stage of the development process.

Projects

Nasdaq. *QA Automation Specialist*
As a key member of Nasdaq's NPM division, I helped establish the QA frameworks that keep high-volume trading solutions both reliable and future-proof. Renowned for driving capital market innovation, Nasdaq's NPM demands rigorous testing standards to ensure seamless performance. In this role, I combined tried-and-true QA approaches with cutting-edge practices, delivering secure, timely releases that empower market participants worldwide.

Pax Technology. *QA Analyst*
As a pivotal member of PAX Technologies' QA team, I've ensured the quality and reliability of our cutting-edge Android solutions, which lead the payment terminal technology sector. PAX Technologies is globally recognized for pioneering payment terminal solutions that surpass traditional capabilities and meet security standards.

President's Choice Financial. *QA Automation Engineer*
Led QA efforts for an online banking application facilitating seamless customer onboarding and streamlined banking operations, enhancing the digital experience for President's Choice Financial clients.

Walmart Inc. *QA Analyst*
Contributed as a QA analyst to the development of Walmart's e-commerce application, meticulously testing functionalities to ensure a seamless shopping experience for customers across groceries and a diverse range of goods
